# who we are:

We are a leading full service law and associated professional service firm, with offices in the Vaal Triangle. We lead from the front and choose to set the standard rather than follow. Our success over the past 61 years has been built on our willingness to explore new and unconventional approaches to law and the practice of law, and our clients have to come to expect a different approach and unique solutions when they work with us. To celebrate our 61 year anniversary we decided to once again push the conventional approach to law and established a new breed of law firm with upgraded offices, new technology, improved service standards and have developed the most comprehensive legal and associated professional service network offering available under one roof in SA, to add value and differentiate us from our competition.

We follow a client-orientated management philosophy where our clients come first and constantly re-evaluate how we can best serve them. We aim to provide the highest possible standard of service in each of our business units to maintain the level of quality at every point of contact with our clients.

# what we do:

There is no substitute for hard work. But we also work smart, bringing years of experience and expertise to bear in finding non-traditional and tailored solutions that fit. We work as a team so that our clients experience seamless service and use our broad service directory and sector specialisation to deliver results.

We have collaborated and partnered with leading financial institutions, insurance brokers, business specialists and other industry experts, to form the DBC Group. Our dedicated team of experienced specialist lawyers and associated professional advisors are knowledge experts in their various fields and industries. As your needs change throughout our relationship with you, we will ensure that you have the right professional for the job. Our integrity and client focus will remain consistent irrespective of which team member assists you.

We serve private individuals, corporations, institutional and governmental entities across multiple industry sectors, providing clients a broad range of legal, wealth, property and business services and solutions under one roof.
